Price for Winter Vegetable CSA only \$150!

Farmer Andrew's Meat CSA also available:

"My neighbor has a custom processing facility we can use in the winter which might allow us to deliver fresh meat. It is less money to package fresh meat in plastic. Please instruct if you prefer paper. Sausage will be packed in 2lb plastic bags unless otherwise instructed. 6% of a 400lb calf should result in 10lbs of meat and 5% of a 400lb hog should result in 10lbs of meat. If the animal is larger or smaller, we will adjust the percent so you will receive 10lbs. The beef or Veal is from this spring that are still nursing, but it's a hearty red veal due to the calves' eating grass as well."

CSA Agreement: Community Supported Agriculture (CSA) is a partnership of mutual commitment between a community of supporters (CSA Members) and a farm, which creates a direct link between the production and consumption of food. By purchasing a share of the season's harvest, a CSA Member makes a commitment to cover a farm's yearly operating budget and support the farm throughout the season and thus assumes the costs, risks, and bounty of growing food. In return, the farm provides, to the best of its ability, a healthy supply of fresh produce throughout the growing season. CSA membership creates a responsible relationship between people and the food they eat, the land on which it is grown, and those who grow it. Joining Eco-Gardens Beyond Organic Exclusive Membership CSA also gives a CSA Member the right to purchase items offered by Eco-Gardens Farm. Unclaimed shares will be forfeited.
